

*EXAMINER INTERVIEW SUMMARY RECORD*

The Applicants wish to thank Examiner Shin for her time and feedback during the interview conducted on February 18, 2009. It was very helpful to Applicants in knowing how to amend the claims. Again, Examiner Shin's insights and suggestions were quite helpful and are greatly appreciated. Proposed amendments to claims 1 and 26 were discussed in light of the Kudrimoti reference, and it was indicated that specifying in the claims that the computed latency represents a round trip delay may be looked upon favorably. Furthermore, it was clarified that the Office action is non-final.
